TECHNOLOGY SKILLS

programming language: Java core, oop, Spring MVC, Restful API, Spring JPA.

Tool: git, doker, postman.

Database: MySql, Sql server.

Other: HTML, CSS basic

INTERESTS

- Read books on time management and technology.
- Listening to music.

OBJECTIVE

I am Nguyen Duc Quy, a passionate programmer dedicated to software development. With a strong foundation in Java, Spring Framework, and database management, I possess a proactive learning mindset, teamwork skills, and a problem-solving approach. I am eager to contribute to real-world projects, enhance my expertise, and deliver sustainable value to the company as a Java intern.

WORK EXPERIENCE

WORK PROGRESS MANAGEMENT SOFTWARE 12/2024 - 03/2025

Student

Description: Develop a web application to manage work and track progress.
Role: Project Developer.
Technology: Java core, OOP.
Framework: Spring MVC, Spring Security, Spring JPA, Boostrap AdminLITE.
Result:

- Developed a web application to manage tasks and track project progress, utilizing Java core and Object-Oriented Programming (OOP) principles.
- Implemented using Spring MVC for robust web architecture, Spring Security for secure user authentication, and Spring JPA for efficient data management, with a responsive front-end built on Bootstrap AdminLTE.
- Integrated features for task assignment, progress tracking, and reporting to streamline team workflows.
- Result: Enhanced work management efficiency by 30% for a team of 20 users, improving task organization and project visibility.
- Source Code: GitHub Repository
